

- Watertight, Chemical-Resistant Nylon Funnel
- Easy-to-Reach, 6-Foot Aluminum Handle
- Full, One-Year Warranty

Specifications

Heavy-duty drench shower tester provides a convenient way to comply with ANSI specifications for weekly testing on all drench showers without getting wet. A funnel directs water to a drain or bucket (not included) and prevents splashing of the surrounding area. The aluminum handle provided makes it easy to position the funnel under the showerhead.

Standard Equipment

Funnel

The 84" long watertight funnel with weighted bottom is chemical-resistant nylon. Diameter of the funnel at the top is 15" (381mm) and at the bottom is 5" (127mm).

Handle

Telescoping aluminum handle extends from 45" (1143mm) to 72" (1829mm) for easier reaching.
